Envision ATLUS I.H.I.S. – Feature List

Intelligent Healthcare Interoperability System Copyright (c) 2025-2026 Envision Virtual Edge Group LLC. All rights reserved. Version: 2026-02-28 Products: WellFit (Community) + Envision Atlas (Clinical)

Platform Overview

Envision ATLUS I.H.I.S. is a dual-product, HIPAA-compliant healthcare platform combining **WellFit** (a community wellness engagement platform for seniors and caregivers) with **Envision Atlas** (an enterprise clinical care management engine for hospitals and providers). Both products share a common spine of identity, tenancy, FHIR/HL7 interoperability, billing infrastructure, and 26+ AI-powered services built on Anthropic Claude.

Key Statistics: - **151 routes** across public, protected, admin, clinical, CHW, workflow, and EMS categories - **147 edge functions** deployed on Supabase (Deno runtime) - **26 AI edge functions** powered by Claude (Haiku 4.5, Sonnet 4.5, Opus 4.5) - **11 MCP servers** providing 96 tools across 3 security tiers - **50+ AI service-layer modules** for clinical reasoning, billing optimization, and patient engagement - **458 database migrations** across ~248 tables with Row-Level Security - **209 service files** in the service layer - **10,304 tests** across 517 suites (100% pass rate) - **Multi-tenant white-label architecture** with explicit CORS origins per tenant

WellFit – Community Wellness Platform

For Seniors & Members

Feature	Route	Description
Member Dashboard	<code>/dashboard</code>	

Feature	Route	Description
		Personalized home view with check-in status, engagement scores, and quick actions
Daily Check-In	/check-in	Daily wellness check-in with vitals (BP, HR, SpO2, glucose), mood, symptoms, and activity tracking
My Health Hub	/my-health	21st Century Cures Act compliant portal for accessing personal health records
Health Observations	/health-observations	View vital signs and lab results via FHIR
Immunizations	/immunizations	Vaccine records via FHIR
Care Plans	/care-plans	Active care plans via FHIR
Allergies	/allergies	Allergy and intolerance list via FHIR
Conditions	/conditions	Medical conditions and diagnoses via FHIR
Medicine Cabinet	/medicine-cabinet	Personal medication tracking and management
Medication Management	/medication-management	Medication reminders, adherence tracking, and drug interaction warnings
Health Insights	/health-insights	AI-powered health analytics and trends
Health Tracker	/health-dashboard	Comprehensive health metrics dashboard
Dental Health	/dental-health	Dental health tracking dashboard
Self-Reporting	/self-reporting	Fallback self-reported health data when devices are unavailable
Vital Capture	/vital-capture	Manual vital sign entry interface
Wearable Dashboard	/wearables	Apple Watch, Fitbit, and other wearable device data aggregation
Smart Scale	/devices/scale	Connected smart scale integration
Blood Pressure Monitor	/devices/blood-pressure	Connected BP monitor integration
Glucometer	/devices/glucometer	Connected glucose monitor integration
Pulse Oximeter	/devices/pulse-oximeter	Connected pulse oximeter integration
Health Records Download	/health-records-download	Export personal records in PDF, FHIR, C-CDA, or CSV format
Telehealth Appointments	/telehealth-appointments	Schedule and join video visits
Ask a Nurse	/ask-nurse	AI-powered Q&A with nurse escalation
Community Moments	/community	Member-shared photos, stories, and social engagement
Word Find Game	/word-find	Cognitive engagement word puzzle game
Memory Lane Trivia	/memory-lane-trivia	Nostalgia-themed trivia game for cognitive engagement

Feature	Route	Description
Mental Health Dashboard	/mental-health	Mental health tracking and resources (feature-flagged)
Heart Health	/heart-health	Patient-facing cardiology dashboard (feature-flagged)
Pregnancy Care	/pregnancy-care	Patient-facing labor and delivery dashboard (feature-flagged)
Cancer Care	/cancer-care	Patient-facing oncology dashboard (feature-flagged)
Doctors View	/doctors-view	View latest check-in vitals and self-reports shared with your care team
Consent Management	/consent-management	Manage data sharing consents and preferences
Amendment Requests	/my-amendments	Request amendments to personal health records (45 CFR 164.526)
Notice of Privacy Practices	/notice-of-privacy-practices	HIPAA Notice of Privacy Practices
Profile	/profile	Personal profile management
Demographics	/demographics	Demographic information management
Settings	/settings	Application preferences and notification settings
Help	/help	AI-powered help and support
EMS Access	/ems	Emergency medical services quick access

For Caregivers

Feature	Route	Description
Caregiver Access	/caregiver-access	PIN-based access portal for family caregivers (no login required)
Senior View	/senior-view/:seniorId	View loved one's check-in status and wellness data via PIN
Senior Reports	/senior-reports/:seniorId	View wellness reports for a senior via PIN
Caregiver Dashboard	/caregiver-dashboard	Authenticated caregiver home with alerts and status
Set Caregiver PIN	/set-caregiver-pin	Configure PIN-based access for family members

For Community Organizations

Feature	Route	Description
Kiosk Check-In	/kiosk/check-in	Public kiosk for community site walk-in check-ins
Kiosk Dashboard	/chw/kiosk-dashboard	Admin view of kiosk activity and utilization
CHW Dashboard	/chw/dashboard	Community Health Worker home dashboard

Feature	Route	Description
CHW Vitals Capture	/chw/vitals-capture	Staff-assisted vital sign capture at community sites
Medication Photo Capture	/chw/medication-photo	AI-powered medication label and pill photo identification
SDOH Assessment	/chw/sdoh-assessment	Social Determinants of Health screening tool
Telehealth Lobby	/chw/telehealth-lobby	Telehealth waiting room for community sites
Provider Availability	/provider/availability	Provider schedule management for telehealth
Appointment Analytics	/appointment-analytics	Appointment utilization and no-show analytics

Envision Atlas - Clinical Care Engine

Role-Based Clinical Dashboards

Feature	Route	Roles
Physician Office Dashboard	/physician-office	6-tab workspace: patients, orders, notes, schedule, messages, analytics
Physician Panel	/physician-dashboard	Clinical patient management with priority boards
Nurse Office Dashboard	/nurse-office	6-tab nurse-specific workflow workspace
Nurse Panel	/nurse-dashboard	Nurse care management with bed status and handoffs
Nurse Census Board	/nurse-census	Real-time unit census with patient acuity
Case Manager Dashboard	/case-manager-dashboard	Care coordination, referrals, and discharge planning
Social Worker Dashboard	/social-worker-dashboard	SDOH assessments and community resource coordination
ER Dashboard	/er-dashboard	Emergency department patient flow and boarding
Specialist Dashboard	/specialist/dashboard/:type	Specialty-specific workflow by provider type
Staff Wellness Dashboard	/staff-wellness	Staff burnout monitoring and wellness resources

Patient Care & Documentation

Feature	Route / Admin Section	Description
Unified Patient Chart	/patient-chart/:patientId	Comprehensive chart with tabs: meds, care plans, labs, vitals, immunizations, notes
Patient Avatar Body Map	/patient-avatar/:patientId	Visual body map with clinical markers, devices, SDOH indicators, and pregnancy overlay
Patient Engagement Dashboard	Admin: patient-engagement	Monitor senior activity levels to identify at-risk patients
Compass Riley AI Scribe	/compass-riley	Real-time AI medical transcription with 3 modes: SmartScribe, Compass Riley, Consultation
Clinical Note Summarization	Admin: clinical-note-summary	AI-generated SOAP notes, progress notes, and discharge summaries
Care Gap Detection	/admin/care-gaps	Identify and close preventive care gaps across patient panels
Care Coordination	/care-coordination	Multi-disciplinary care plan management (feature-flagged)
Readmission Risk Dashboard	/readmissions	AI-predicted readmission risk with intervention tracking
Community Readmission	/community-readmission	Community-facing readmission prevention dashboard
Referrals Management	/referrals	External referral tracking with aging analysis (feature-flagged)
Referral Aging Analysis	Admin: referral-aging	Track pending referrals by aging bucket with automated follow-up
Specialist Confirmation	Admin: referral-completion	Record specialist completion and close the referral loop
Discharge Tracking	/discharge-tracking	Post-discharge patient follow-up dashboard (feature-flagged)
Frequent Flyer Dashboard	/frequent-flyers	High utilizer analytics and intervention tracking (feature-flagged)
Remote Patient Monitoring	/rpm-dashboard	RPM vital trends and alert management

Feature	Route / Admin Section	Description
Clinical Alerts	/clinical-alerts	Real-time clinical alert routing and management
Questionnaire Analytics	/questionnaire-analytics	Questionnaire response analytics and trends (feature-flagged)
Healthcare Integrations	/healthcare-integrations	Integration status dashboard for FHIR, HL7, labs, pharmacy (feature-flagged)
Provider Assignment	Admin: provider-assignment	Assign attending, supervising, and consulting providers to encounters
Unacknowledged Results	Admin: unacknowledged-results	Track critical lab and imaging results requiring clinician review
Provider Task Queue	Admin: provider-task-queue	Inbox routing with SLA deadlines and escalation tracking
Result Escalation Engine	Admin: result-escalation	Auto-route abnormal values to specialist providers with SLA tracking
Provider Coverage & On-Call	Admin: provider-coverage	Absence coverage, on-call rotations, and automatic task routing
Paper Form Scanner	Admin: paper-form-scanner	AI-powered OCR for paper forms (rural hospital outage resilience)
Hospital Patient Enrollment	Admin: hospital-enrollment	Patient enrollment for clinical workflows
Field Visit Workflow	/specialist/visit/:visitId	Community-based specialist visit documentation

Bed Management & Patient Flow

Feature	Route / Admin Section	Description
Bed Management Panel	/bed-management	Real-time bed inventory, assignments, and capacity forecasting
Shift Handoff Dashboard	/shift-handoff	AI-assisted nurse shift handoff with auto-scored patient risks
Patient Handoff System	Admin: patient-handoff	Secure inter-facility transfer of care (HIPAA compliant)
Hospital Transfer Portal	/hospital-transfer	Full transfer workflow with medication reconciliation
Receiving Dashboard	/handoff/receiving	

Feature	Route / Admin Section	Description
		Incoming transfer acceptance and preparation
Transfer Logs	/transfer-logs	Audit trail of all patient transfers

Clinical Specialty Modules

Module	Route	Components	Status
Labor & Delivery	/pregnancy-care	37 components: prenatal care, labor tracking, fetal monitoring, delivery records, postpartum assessments, PPD screening, AI birth plan generator, contraindication checker, patient education, billing suggestions, SDOH panel, shift handoff, progress notes, escalation, drug interaction alerts, guidelines compliance, discharge summary, metrics	Complete (8 sessions)
Cardiology	/heart-health	ECG results, echocardiography, heart failure assessment, cardiac device monitoring, cardiac registry, device battery alerts	Foundation built; Phase 1 pending (12-13 sessions)
Oncology	/cancer-care	Cancer registry, TNM staging, treatment tracking, overview dashboard, alerts	Foundation built; Phase 1 pending (11 sessions)
Neurology Suite	/neuro-suite	Cognitive assessment, stroke assessment, neuro dashboard	Built
Memory Clinic	/memory-clinic/:patientId	Dementia assessment, caregiver portal, stroke rehab dashboard	Built
Physical Therapy	/physical-therapy	PT assessments, treatment plans, session tracking	Built
Dental	/dental-health	Dental health dashboard with assessments, procedures, tooth chart, imaging	Built
Mental Health	/mental-health	Mental health tracking and screening tools	Built

Medication Safety

Feature	Location	Description
Medication Manager	/medication-manager	Admin-level medication oversight for clinical staff
Drug Interaction Checker	Edge: check-drug-interactions	Real-time drug-drug interaction detection with PubMed evidence

Feature	Location	Description
AI Contraindication Detector	Edge: ai-contraindication-detector	Detect medication contraindications for patient context
AI Medication Reconciliation	Edge: ai-medication-reconciliation	Reconcile medications across care transitions
AI Medication Adherence	Edge: ai-medication-adherence-predictor	Predict medication non-adherence risk
Pill Identifier Service	Service layer	AI-powered pill identification from photos
Medication Label Reader	Service layer	AI-powered medication label text extraction

Revenue Cycle Management

Feature	Admin Section ID	Description
Revenue Dashboard	revenue-dashboard	Real-time revenue analytics and optimization opportunities
SmartScribe Atlas	smartscribe-atlas	AI transcription optimized for maximum billing accuracy
Billing & Claims Management	billing-dashboard	Claims processing monitoring and revenue tracking
Claims Submission Center	claims-submission	Generate and submit 837P claims to clearinghouses
Claims Appeals & Resubmission	claims-appeals	AI-assisted appeal letters for denied claims
Claim Resubmission Workflow	claim-resubmission	Correct denied claims, track resubmission chains, void unrecoverable claims
Claim Aging Dashboard	claim-aging	Track claims by aging bucket to identify revenue bottlenecks
Prior Authorization Center	prior-auth	CMS-0057-F compliant prior auth requests, decisions, and appeals
Superbill Provider Sign-Off	superbill-review	Review and approve superbills before clearinghouse submission
Billing Queue	billing-queue	Bridge signed encounters to superbill drafts with one-click generation
Eligibility Verification	eligibility-verification	Verify patient insurance coverage (270/271) before billing to prevent denials
ERA Payment Posting	era-payment-posting	Match ERA/835 remittance advice to claims and post payments
Undercoding Detection	undercoding-detection	

Feature	Admin Section ID	Description
		Compare AI-suggested codes vs billed codes to identify revenue gaps
Documentation Gap Indicator	documentation-gap	Alerts showing what to document to qualify for higher E/M levels
HCC Opportunity Flags	hcc-opportunity-flags	Identify expiring and missing HCC diagnoses for Medicare Advantage risk adjustment
CCM Autopilot	ccm-autopilot	Automatic tracking of 20+ minute interactions for CCM billing (CPT 99490)
SDOH Billing Encoder	sdoh-billing	Social determinants of health-aware medical coding
Provider Registry	provider-registry	Register and verify billing providers via NPI Registry (NPPES auto-populate)
Staff Financial Savings	staff-financial-savings	Track cost savings by nurse, position, and department
EDI Clearinghouse Config	Admin: clearinghouse-config	Configure Waystar, Change Healthcare, or Availity credentials
Billing Review	/billing/review	Detailed billing review dashboard (feature-flagged)
Revenue Analytics	/revenue-dashboard	Revenue trend analytics (feature-flagged)
AI Revenue Dashboard	/admin/ai-revenue	AI-powered revenue optimization insights
AI Cost Dashboard	/admin/ai-cost	AI service cost tracking and budget analysis (super admin)

EMS & Emergency Response

Feature	Route	Description
EMS Metrics Dashboard	/ems/metrics	EMS response time, transport, and outcome analytics (feature-flagged)
Coordinated Response	/ems/coordinated-response/:id	Multi-agency coordinated emergency response dashboard (feature-flagged)
Emergency Alert Dispatch	Edge function	Real-time emergency alert routing to on-call providers
Constable Dispatch	/constable-dispatch	Law enforcement welfare check dispatch (feature-flagged)
Law Enforcement Landing	/law-enforcement	Public-facing law enforcement coordination portal (feature-flagged)

AI-Powered Services

Clinical AI (16 Edge Functions)

Service	Edge Function	Model Tier	Description
Readmission Risk Predictor	ai-readmission-predictor	Sonnet	Predict 30-day readmission risk with contributing factors
Fall Risk Predictor	ai-fall-risk-predictor	Sonnet	Assess patient fall risk based on clinical data
Infection Risk Predictor	ai-infection-risk-predictor	Sonnet	Predict healthcare-associated infection risk
SOAP Note Generator	ai-soap-note-generator	Sonnet	Generate structured SOAP notes from encounter data
Progress Note Synthesizer	ai-progress-note-synthesizer	Sonnet	Synthesize multi-source progress notes
Care Plan Generator	ai-care-plan-generator	Sonnet	Generate individualized care plans
Discharge Summary	ai-discharge-summary	Sonnet	Generate discharge summaries with follow-up instructions
Treatment Pathway	ai-treatment-pathway	Sonnet	Reference evidence-based treatment pathways for 12+ conditions
Clinical Guideline Matcher	ai-clinical-guideline-matcher	Sonnet	Match patient data to clinical guidelines for 12+ conditions
Contraindication Detector	ai-contraindication-detector	Sonnet	Detect medication contraindications for patient context
Medication Reconciliation	ai-medication-reconciliation	Sonnet	Reconcile medications across care transitions
Medication Adherence Predictor	ai-medication-adherence-predictor	Sonnet	Predict medication non-adherence risk
Medication Instructions	ai-medication-instructions	Haiku	Generate patient-friendly medication instructions
Referral Letter Generator	ai-referral-letter	Sonnet	Generate specialist referral letters
Appointment Prep Instructions	ai-appointment-prep-instructions	Haiku	Generate patient-specific appointment preparation instructions

Service	Edge Function	Model Tier	Description
Patient Education Generator	ai-patient-education	Haiku	Generate personalized patient education materials

Community AI (6 Edge Functions)

Service	Edge Function	Model Tier	Description
Check-In Question Generator	ai-check-in-questions	Haiku	Personalized daily check-in questions based on history
Missed Check-In Escalation	ai-missed-checkin-escalation	Sonnet	Risk scoring for missed check-in patterns
Smart Mood Suggestions	smart-mood-suggestions	Haiku	Wellness suggestions based on mood data
Patient Q&A Bot	ai-patient-qa-bot	Haiku	Community member health question answering
Personalization Engine	claude-personalization	Haiku	Content and experience personalization
Personalized Greeting	get-personalized-greeting	Haiku	AI greeting based on engagement history

Shared AI (6 Edge Functions)

Service	Edge Function	Model Tier	Description
Care Escalation Scorer	ai-care-escalation-scorer	Sonnet	Score care escalation urgency across both systems
Caregiver Briefing	ai-caregiver-briefing	Haiku	Generate plain-language caregiver status briefings
Avatar Entity Extractor	ai-avatar-entity-extractor	Sonnet	Extract clinical entities for patient avatar body map
Billing Suggester	ai-billing-suggester	Sonnet	Suggest billing codes from encounter documentation
FHIR Semantic Mapper	ai-fhir-semantic-mapper	Sonnet	Map legacy data to FHIR R4 resources semantically
Schedule Optimizer	ai-schedule-optimizer	Sonnet	Optimize provider and appointment scheduling

Additional AI Edge Functions

Service	Edge Function	Description
Provider Assistant	ai-provider-assistant	AI assistant for provider workflow queries
Coding Suggest	coding-suggest	AI-powered CPT/ICD-10 code suggestions from documentation
SDOH Coding Suggest	sdoh-coding-suggest	Social determinants Z-code suggestions
Claude Chat	claude-chat	General-purpose Claude conversation interface

Compass Riley - AI Medical Scribe (Route: /compass-riley)

Mode	Description
SmartScribe Mode	Real-time medical transcription with SOAP note generation and billing code extraction
Compass Riley Mode	Progressive clinical reasoning with anti-hallucination grounding, PubMed evidence retrieval, guideline matching for 12+ conditions, and conversation drift protection across 21 clinical domains
Consultation Mode	Physician clinical reasoning partner with structured case presentation, Socratic reasoning, differential diagnosis with red flags and key tests, cannot-miss diagnoses with severity classification, and peer consult prep in SBAR format for 12 specialties

Compass Riley Features: - Anti-hallucination grounding in all prompt paths - Progressive clinical reasoning across encounters - Conversation drift protection (21 domains) - PubMed evidence retrieval with zero PHI leakage - Clinical guideline matching (12+ conditions) - Treatment pathway references (12+ conditions) - Enhanced differentials with red flags, key tests, and literature notes - Structured cannot-miss diagnoses with severity levels - Peer consult prep in SBAR format for 12 specialties - Voice learning and correction - Session feedback and quality tracking

AI Service Layer (50+ Modules in src/services/ai/)

Category	Services
Clinical Decision Support	Readmission prediction (feature extractor, model config, predictor), fall risk, infection risk, holistic risk assessment, clinical guideline matching, treatment pathway, contraindication detection
Documentation	SOAP notes, progress notes, discharge summaries, care plans, referral letters, patient education
Billing & Revenue	Billing code suggestion, billing optimization engine, undercoding detection, SDOH coding, HCC opportunity detection, CCM eligibility scoring
Patient Engagement	Dashboard personalization, patient outreach, pill identification, medication label reading, patient Q&A, missed check-in escalation

Category	Services
Operations	Bed optimization, schedule optimization, field visit optimization, handoff risk synthesis, welfare check dispatch
Security & Compliance	HIPAA violation prediction, PHI exposure risk scoring, security anomaly detection, emergency access intelligence
Transparency & Accuracy	AI accuracy tracking, audit report generation, confidence scoring, model cards
Interoperability	FHIR semantic mapping, HL7 v2 interpretation
Care Coordination	Care escalation scoring, caregiver briefing, care team chat summarization
Medication Safety	Medication reconciliation, adherence prediction, contraindication detection, medication instructions

Healthcare Interoperability

FHIR R4

Feature	Description
FHIR R4 Server	Full FHIR R4 REST API via <code>fhir-r4</code> edge function
FHIR Metadata	Capability statement endpoint via <code>fhir-metadata</code>
21 FHIR Resource Services	Patient, Encounter, Condition, MedicationRequest, Medication, Observation, Procedure, DiagnosticReport, Immunization, AllergyIntolerance, CarePlan, CareTeam, Goal, Practitioner, PractitionerRole, Organization, Location, DocumentReference, Provenance, SDOH, HealthEquity
Specialty FHIR	Cardiology, dental, L&D, oncology sub-services
Medication Affordability	FHIR-based medication cost and alternative lookup
FHIR Data Mapper	Transform legacy data into FHIR-compliant formats (admin section)
FHIR Questionnaire Builder	AI-assisted clinical questionnaire creation (admin section)
AI-Enhanced FHIR Analytics	Real-time patient insights and clinical decision support (admin section)
FHIR Conflict Resolution	Resolve sync conflicts from external EHR systems (<code>/admin/fhir-conflicts</code>)
Enhanced FHIR Export	Bulk FHIR resource export via <code>enhanced-fhir-export</code>
C-CDA Export	Consolidated CDA document generation via <code>ccda-export</code>
FHIR Semantic Mapping	AI-powered legacy-to-FHIR data transformation

Feature	Description
PDF Health Summary	Patient-facing PDF health summary generation

HL7 v2.x

Feature	Description
HL7 Message Receiver	Inbound HL7 v2.x message processing via <code>hl7-receive</code>
HL7/X12 Message Lab	Parse, validate, and convert HL7 v2.x and X12 837P messages (admin section)
HL7-to-FHIR Conversion	Transform HL7 v2.x messages to FHIR R4 resources

X12 EDI

Feature	Description
837P Claim Generation	Generate X12 837P professional claims via <code>generate-837p</code>
X12 Claim Generator	UI component for X12 claim creation and validation
X12 997 Parser	Functional acknowledgment parsing and tracking

SMART on FHIR

Feature	Route / Function	Description
SMART App Management	<code>/admin/smart-apps</code>	Register and manage SMART on FHIR applications
SMART Authorization	<code>smart-authorize</code>	OAuth2 authorization endpoint
SMART Token	<code>smart-token</code>	OAuth2 token endpoint
SMART Configuration	<code>smart-configuration</code>	<code>.well-known/smart-configuration</code> discovery
SMART App Registration	<code>smart-register-app</code>	Dynamic client registration
SMART Revocation	<code>smart-revoke</code>	Token revocation endpoint

Public Health Reporting

Feature	Edge Function	Description
Immunization Registry	<code>immunization-registry-submit</code>	Submit immunization records to state registries
Syndromic Surveillance	<code>syndromic-surveillance-submit</code>	Report syndromic data to public health authorities

Feature	Edge Function	Description
Electronic Case Reporting	ecr-submit	Automated electronic case reporting
PDMP Query	pdmp-query	Prescription Drug Monitoring Program lookups
Public Health Dashboard	Admin: public-health-reporting	Monitor all public health data transmissions

Security & Compliance

HIPAA Controls

Feature	Route / Section	Description
Facility Security Dashboard	Admin: tenant-security	Real-time security monitoring with alert management and session tracking
Audit Logs	Admin: tenant-audit-logs	PHI access logs and administrative action audit trail
Compliance Report	Admin: tenant-compliance	HIPAA and security compliance status reporting
Breach Notification Engine	Admin: breach-notification	HIPAA breach incident tracking with risk assessment and 60-day notification compliance
BAA Tracking	Admin: baa-tracking	Business associate agreement lifecycle management and renewal tracking
Patient Amendment Review	Admin: patient-amendment-review	Review patient requests to amend health records (45 CFR 164.526)
Training Compliance	Admin: training-compliance	HIPAA workforce security awareness training tracking
Configuration Change History	Admin: tenant-config-history	Full audit trail of all configuration changes with CSV/JSON export
Encounter Audit Timeline	Admin: encounter-audit-timeline	Chronological audit of encounter status changes, field edits, and access events
MFA Compliance	Admin: mfa-compliance	Monitor MFA enrollment across admin and clinical staff
PHI Access Logging	Service: phiAccessLogger	Every PHI read/write logged with user, timestamp, and reason
Idle Timeout	Component	Auto-logout after 15 minutes of inactivity (HIPAA compliance)

Feature	Route / Section	Description
PHI Encryption	Edge: <code>phi-encrypt</code>	Server-side PHI field encryption
PIN-Based Auth	Edge functions	Hashed PIN verification for caregiver and admin access
Passkey Authentication	Edge functions	WebAuthn/FIDO2 passwordless authentication
Consent Management	<code>/consent-management</code>	Patient data sharing consent preferences

SOC2 Readiness

Feature	Route	Description
SOC2 Compliance Dashboard	<code>/soc-dashboard</code>	Comprehensive SOC2 controls monitoring
SOC2 Security Dashboard	Admin component	Multi-section SOC2 security assessment

HTI-1 / HTI-2 Compliance

Feature	Route / Section	Description
AI Model Cards	<code>/admin/model-cards</code>	HTI-1 compliant AI/ML model documentation and risk classification
AI Transparency Log	Database table	Every AI decision logged with model version, input hash, and confidence score
Patient Descriptions	Database: <code>ai_skills.patient_description</code>	Plain-language explanations of all 60 AI skills for patient transparency
Healthcare Algorithms Dashboard	<code>/admin/healthcare-algorithms</code>	Algorithm inventory and documentation
AI Accuracy Dashboard	<code>/admin/ai-accuracy</code>	AI prediction accuracy monitoring and validation

ONC Certification

Feature	Route	Description
SAFER Guides Assessment	<code>/admin/safer-guides</code>	ONC SAFER Guides EHR safety self-assessment tool

Platform Administration

Tenant & Organization Management

Feature	Route / Section	Description
Intelligent Admin Panel	/admin	Mission Control orchestrator with category-based section navigation and pinnable dashboards
Super Admin Dashboard	/super-admin	Platform-level administration and oversight
Multi-Tenant Selector	/tenant-selector	Switch between tenant contexts
Multi-Tenant Monitor	/multi-tenant-monitor	Cross-tenant health monitoring
Enterprise Migration	/enterprise-migration	Data migration tools for enterprise onboarding
Facility Management	Admin: facility-management	Manage hospitals, clinics, and facilities
Module Configuration	Admin: module-configuration	Enable or disable platform modules per tenant
Tenant IT Dashboard	/it-admin	IT administrator operations dashboard
System Administration	/admin/system	System-level configuration and monitoring

User & Role Management

Feature	Route / Section	Description
User Management	Admin: user-management	Manage patient and staff accounts
Staff Role Management	Admin: user-role-management	Assign, change, and revoke roles with hierarchy enforcement and audit logging
User Provisioning	Admin: user-provisioning	Create new user accounts and manage pending registrations
Enroll Senior	/admin/enroll-senior	Individual senior enrollment form
Bulk Enrollment	/admin/bulk-enroll	CSV-based bulk patient enrollment
Admin Profile Editor	/admin-profile-editor	Admin user profile management
Admin Settings	/admin/settings	Administrative preferences and configuration
API Key Management	/admin/api-keys	Generate and manage API keys (super admin only)

Data & Analytics

Feature	Route / Section	Description
Reports & Analytics	Admin: reports-analytics	System-wide analytics and insights
Data Export	Admin: data-export	Export check-in data and advanced admin functions
Bulk Export	/admin/bulk-export	Bulk data export with format selection
Admin Reports	/admin/reports	Printable report generation (feature-flagged)
Quality Measures	Admin: quality-measures	eCQM, HEDIS, MIPS, and Star Ratings performance tracking
Photo Approval	/admin/photo-approval	Moderate community-submitted photos
Template Maker	/template-maker	Create document templates for clinical workflows

Guardian Agent (Self-Healing System)

Feature	Route	Description
Guardian Agent Dashboard	/guardian/dashboard	Self-healing system monitoring with anomaly detection
Guardian Approvals List	/guardian/approvals	Review and approve system-recommended fixes
Guardian Approval Form	/guardian/approval/:ticketId	Detailed fix approval workflow
Guardian Eyes Recording	Background service	Smart session recording (1% sampling + all errors and security events)
Guardian PR Service	Edge function	Automated pull request generation for approved fixes

Time & Attendance

Feature	Route	Description
Time Clock	/time-clock	Staff clock-in/out with shift tracking (feature-flagged)
Time Clock Admin	/admin/time-clock	Administrative time entry management and export

MCP Servers (Model Context Protocol)

11 MCP servers providing 96 tools for AI-assisted healthcare operations:

Server	Tools	Tier	Description
mcp-fhir-server	14	Tier 3 (Service Role)	FHIR CRUD operations across all resource types
mcp-hl7-x12-server	9	Tier 3	HL7 v2.x parsing, validation, and FHIR conversion; X12 837P generation
mcp-prior-auth-server	11	Tier 3	Prior authorization lifecycle: create, submit, check status, appeal, FHIR conversion
mcp-clearinghouse-server	10	Tier 3	Clearinghouse integration: submit claims, check status, process remittance
mcp-cms-coverage-server	9	Tier 2 (Admin)	CMS LCD/NCD lookups and coverage determination
mcp-npi-registry-server	8	Tier 2	NPI validation, provider search, taxonomy codes, bulk validation
mcp-pubmed-server	7	Tier 2	PubMed article search, abstracts, citations, clinical trial lookups, MeSH terms
mcp-medical-codes-server	9	Tier 3	CPT, ICD-10, HCPCS, and modifier code lookups with validation
mcp-postgres-server	7	Tier 3	Direct database analytics with tenant-scoped query safety
mcp-edge-functions-server	7	Tier 3	Edge function orchestration, batch invocation, and health monitoring
mcp-claude-server	5	Tier 1 (Public)	Claude API proxy for text analysis, summarization, and suggestions

Edge Functions (147 Deployed)

Authentication & Identity (20)

login, register, envision-login, envision-totp-setup, envision-totp-verify, envision-totp-use-backup, envision-verify-pin, envision-check-super-admin, envision-complete-reset, envision-request-reset, admin_register, admin_start_session, admin_end_session, admin_set_pin, admin-totp-setup, admin-totp-verify, verify-admin-pin, setup-admin-credentials, login-security, hash-pin

Passkey / WebAuthn (4)

passkey-auth-start, passkey-auth-finish, passkey-register-start, passkey-register-finish

Verification & Security (5)

verify-hcaptcha, sms-send-code, sms-verify-code, verify-pin-reset, request-pin-reset

Messaging & Notifications (12)

send-sms, send-email, send-push-notification, send_welcome_email, send-appointment-reminder, send-telehealth-appointment-notification, send-team-alert, emergency-alert-dispatch, send-checkin-reminders, send-check-in-reminder-sms, send-consecutive-missed-alerts, send-referral-followup-reminders

Community Wellness (7)

create-checkin, notify-family-missed-check-in, notify-stale-checkins, send-stale-reminders, nurse-question-auto-escalate, admin-user-questions, enrollClient

Clinical Operations (9)

bed-management, bed-optimizer, bed-capacity-monitor, detect-no-shows, process-appointment-reminders, ld-alert-notifier, vital-threshold-monitor, security-alert-processor, get-risk-assessments

SMART on FHIR (5)

smart-authorize, smart-token, smart-configuration, smart-register-app, smart-revoke

Telehealth (2)

create-patient-telehealth-token, create-telehealth-room

Data Management (7)

bulk-export, export-status, user-data-management, mobile-sync, update-profile-note, update-voice-profile, save-fcm-token

Medical Processing (7)

check-drug-interactions, coding-suggest, sdoh-coding-suggest, process-medical-transcript, realtime_medical_transcription, extract-patient-form, process-vital-image

FHIR & Interoperability (4)

fhir-r4, fhir-metadata, ccda-export, enhanced-fhir-export

HL7 & Public Health (4)

hl7-receive, immunization-registry-submit, syndromic-surveillance-submit, ecr-submit

Billing & Revenue (2)

generate-837p, generate-api-key

AI Services (26)

ai-readmission-predictor, ai-fall-risk-predictor, ai-infection-risk-predictor, ai-soap-note-generator, ai-progress-note-synthesizer, ai-care-plan-generator, ai-discharge-summary, ai-treatment-pathway, ai-clinical-guideline-matcher, ai-contraindication-detector, ai-medication-reconciliation, ai-medication-adherence-predictor, ai-medication-instructions, ai-referral-letter, ai-appointment-prep-instructions, ai-patient-education, ai-check-in-questions, ai-missed-checkin-escalation, ai-patient-qa-bot, ai-care-escalation-scorer, ai-caregiver-briefing, ai-avatar-entity-extractor, ai-billing-suggester, ai-fhir-semantic-mapper, ai-schedule-optimizer, ai-provider-assistant

System Operations (9)

health-monitor, system-status, prometheus-metrics, daily-backup-verification, nightly-excel-backup, cleanup-temp-images, phi-encrypt, pdmp-query, safer-guides-pdf

Guardian Agent (3)

guardian-agent, guardian-agent-api, guardian-pr-service

AI Infrastructure (3)

agent-orchestrator, claude-chat, log-ai-confidence-score

MCP Servers (11)

mcp-claude-server, mcp-clearinghouse-server, mcp-cms-coverage-server, mcp-edge-functions-server, mcp-fhir-server, mcp-hl7-x12-server, mcp-medical-codes-server, mcp-npi-registry-server, mcp-postgres-server, mcp-prior-auth-server, mcp-pubmed-server

Infrastructure

Architecture

Component	Technology
Frontend	React 19, TypeScript, Vite, Tailwind CSS 4.1
Backend	Supabase (PostgreSQL 17), Deno Edge Functions
AI Engine	Anthropic Claude (Haiku 4.5, Sonnet 4.5, Opus 4.5)
Authentication	Supabase Auth with JWT, TOTP MFA, WebAuthn/Passkey, PIN-based access
Real-time	Supabase Realtime (WebSocket subscriptions)
Storage	Supabase Storage with PHI encryption
Monitoring	Prometheus metrics, Guardian Agent self-healing, performance monitoring
State Management	React Query (TanStack), React Context (10 contexts)
Testing	Vitest, React Testing Library (10,304 tests, 517 suites)

Multi-Tenant White-Label

Capability	Description
Tenant Isolation	Row-Level Security on all tables with <code>get_current_tenant_id()</code>
Custom Branding	Per-tenant colors, logos, and domain via <code>useBranding()</code> hook
Module Access	Two-tier entitlement system: paid-for + enabled via <code>useModuleAccess()</code>
Explicit CORS	<code>ALLOWED_ORIGINS</code> env var with per-tenant domains (no wildcards)
License Types	<code>0</code> = Both products, <code>8</code> = Atlus only, <code>9</code> = WellFit only
Tenant Suspension	Login enforcement and UI banners for suspended tenants

Database

Metric	Count
Migrations	458
Tables (estimated)	~248
Views (materialized + standard)	30+
RLS Policies	All tables with tenant and user scoping

Codebase Health (as of 2026-02-28)

Metric	Value
Tests	10,304 passed, 0 failed
Test Suites	517
Typecheck	0 errors
Lint	0 errors, 0 warnings
Service Files	209
React Contexts	10
Edge Functions	147 deployed
MCP Servers	11 (96 tools)
AI Edge Functions	26
AI Service Modules	50+
God Files (>600 lines)	1 flagged (SOC2ComplianceDashboard)

Generated from codebase crawl on 2026-02-28. Only features with actual routes, components, edge functions, or service implementations are listed. No invented features.

Addendum — Features Added Since Last Catalog (verified 2026-06-11)

The following features exist in the live codebase but were not in the prior catalog. Verified by a full route crawl of `src/App.tsx` on 2026-06-11.

Patient & Community (WellFit)

Feature	Route	What it does
Questions	<code>/questions</code>	Submit and browse health questions
Check-In History	<code>/check-in-history</code>	Review past check-ins and trends over time
Meal Detail	<code>/meals/:id</code>	View a specific meal / nutrition plan
Photo Consent	<code>/consent-photo</code>	Manage photo and likeness consent
Privacy Consent	<code>/consent-privacy</code>	Review and adjust privacy consent
Smart Callback	<code>/smart-callback</code>	Request a callback from a provider

Clinical — CPOE Order Entry (ONC Certified)

Feature	Route	ONC Criterion
Medication Orders	/admin/cpoe/medication/:patientId	170.315(a)(1)
Lab Orders	/admin/cpoe/lab/:patientId	170.315(a)(2)
Imaging Orders	/admin/cpoe/imaging/:patientId	170.315(a)(3)
Implantable Device List	/admin/devices/:patientId	170.315(a)(14)
Family Health History	/admin/family-history/:patientId	170.315(a)(12)

Clinical Workflows

Feature	Route	What it does
Nurse Wellness (Resilience Hub)	/nurse-wellness	Burnout prevention and emotional resilience for nursing staff
Team Huddle	/team-huddle	Daily team huddle and communication board
Wellness Report	/admin/wellness-report	Generate and export team wellness reports
Care Operations	/care-operations	Provider workflow and care operations management

Administration & Hubs

Feature	Route	What it does
Dashboard Hub	/hub	Central gateway to all administrative dashboards
Admin Questions	/admin-questions	Manage the health questions library
Billing Suite	/billing-suite	Revenue cycle management hub (claims, appeals, prior auth, ERA)
Security & Compliance	/security-compliance	HIPAA / SOC2 compliance management
Interoperability Dashboard	/interoperability	FHIR, HL7, and data-mapping management
System Admin Suite	/system-admin	Users, roles, facilities, modules, clearinghouse config
Clinical Quality Dashboard	/clinical-quality	Quality measures and public-health reporting
Admin Tools Dashboard	/admin-tools	Engagement, enrollment, export, and alert tools

Platform & AI Infrastructure

Feature	Route	What it does
MCP Management	/mcp-management	Manage the 20 MCP servers — health, API keys, chain orchestration, cost
Behavioral Anomaly Panel	/guardian/anomalies	Review behavioral anomalies detected by the Guardian Agent

Addendum generated 2026-06-11 from a live `src/App.tsx` route crawl. 25 features that were missing from the prior catalog.
